CAR WEEK AFTER ACTION – MARGI

TUESDAY

CONCOURS ON THE AVENUE

- The event very well attended and everyone appeared to enjoy the event.
- The staging of vehicles was very smooth this year and vehicles were in the venue ahead of time.
- The streets were clean and free of equipment and debris the next morning.
- No grass was placed around the tree squares and this seemed to work well in regards to the event breaking down.
- Having COTA staff the intersections worked very well.

Things to work on:

- Some tables and the go-cart displays were placed in the sidewalk ADA ramps; this will need to be adjusted to not block these areas.
- Merchandise was being sold inside the event; this item needs to be added to the event permit and a copy of the resale license submitted as part of the application. The person selling merchandise needs to have a City of Carmel Business license.
- There were stakes in the ground in the park, the electric and water lines running throughout the park are antiquated. Stakes were not to be driven into the ground at this location.
- Golf carts were parked on the north side of 6th, next to the porta potties, this area worked well as they can “stack” them, I would suggest eliminating the no parking on the south side of the street behind the Pine Inn.

Items not related to COTA

- Bittners’ had 3-5 signs out during Tuesday and Thursday.
- A clothing store on Ocean and Monte Verde also had a large sign out.
- The Church of the Wayfarer had a large blue sign out asking for donations.
- Need to post the “loading zone” parking stalls next to the fire stations.
- Need to post the north side of 8th Avenue between San Carlos and Mission – it is a very narrow street and vehicles get clogged up in this area.
- Need to post the No Parking area at the SW corner of San Carlos and 8th with an A-frame.
- Need Code Enforcement Officer to work the event.

ASTON MARTIN

- On Tuesday they were bringing in large semi-car carriers and off loading on San Carlos while the COTA event was setting up, this caused problems with traffic flow. They need to bring the vehicles in at a different time and coordinate these efforts with the Police Department.
- During the week – Aston Martin had large event trucks that double parked again causing problems with traffic congestion and flow.
- They rented 3 parking stalls at San Carlos and 9th, once these parking spaces were full they would move their delineators to other spots..... they also moved delineators at the corners of San Carlos and Ocean, they moved the delineators to Ocean Avenue several times. I talked to the parking person 3 times.
- Once set up their event was very nice and very well attended.

Wednesday – PRANCING PONIES

- This was a first time event and we anticipated we would have to be a little more hands on with the event.
- The event went relatively smooth and was well attended.
- The number of vehicles in the event was very small - 26.

Things to work on:

- Pre-marking the stalls so vehicles didn't have to be moved several times.
- Putting sand in the flag bases so they don't fall over.
- Have "teams" of people performing various jobs (parking, merchandise, decorations, etc.).
- Bring vehicles into the venue in a timelier manner - bring groups of cars in every 5-10 minutes, not 30 minutes apart, or line them up on Ocean Avenue and bring them in all at the same time. Have a team of people dedicated to parking the vehicles.
- Change the time of the event from 1-5pm to possibly 11-3, people are out and about and want to see the cars earlier in the day.
- Traffic through the event – this did not work well.
 - Traffic control needed to be provided all day, due to the number of pedestrians walking across the street and not watching for vehicles.
 - The directional signs to Hwy 1 - directed traffic onto 6th Avenue - change or remove the Hwy 1 directional signs for the day.

- Possibly close 6th from San Carlos to Lincoln, this would allow the event to expand and eliminate the need to all day traffic control.

Thursday – TOUR D'ELEGANCE

- The event was very well attended and went very well.
- The vehicles were a little late in showing up this year, but were on time leaving.
- The additional tour sign put out by Pebble Beach help with guiding vehicles into the event.
- The trash cans were on the side streets and they needed to be located on Ocean Avenue for the overflow of trash.

PURCHASED PARKING STALLS

- 37 parking stalls were sold from 1-4 days this year. (5 on Wednesday, 37 on Friday, 36 on Saturday and 29 on Sunday.)
- We had problems with delineators being moved to other stalls once the carpet was put in place – a warning will be issued next year and if they are moved to a spot that was not paid for, the delineator and sign will be removed.
- Some people used the delineators to block parking spots on Thursday following the Pebble Beach Event.
- The red carpets worked well to identify where the purchased stalls were located.
- Placards need to be put in the dashboards of cars that are parked legally in the purchased stalls.
- All delineators were returned this year!

SIGNS/DELINEATORS

- We used approximately 448 signs for the Tuesday to Thursday events. We used every long barricade the city owns, approximately 40 a-frames and 288 delineators. We also used 50 cones for the shuttle parking, 35 cones and 4 water barricades for traffic control on Ocean and Junipero on Thursday.
