

# Monterey Fire Prevention Bureau Defensible Space Inspection Program

# Community Wildfire Preparedness

- Forest health
- Building construction requirements
- Defensible space
- Fire Department operations/training

# Fire Hazard Severity Zones

- evaluate wildfire hazards (physical conditions) creating a likelihood an area will burn over a 30- to 50-year period
- designate areas where California's wildland urban interface building codes apply to new buildings
- local governments consider fire hazard severity in the safety elements of their general plans
- meant to help limit wildfire damage to structures through planning, prevention, and mitigation activities/requirements that reduce risk
