

The Carmel Police Department is working towards improving the quality of life for those who live, work and play in Carmel.

The Carmel Police Department has developed a program that will help us provide a better quality of life in Carmel. This can be achieved by working with the community to reduce crime and address other issues of concern.

In today's world police officers are rarely seen, except when you are stopped or are the victim of a crime. The Carmel Police Department wants to provide a service that goes beyond those types of informal, and maybe less pleasant, contacts. We want the public to know that our officers are approachable and ready to help you. Assigning officers to specific areas of the city helps you put a face with an officer and this department. Our officers are here to make sure you feel safe and secure—just as you would expect in Carmel. We welcome you to contact your area's sector sergeant to learn more about this new and exciting program. The name of each sector sergeant is listed on the back of the flyer, along with other important contact information.

## Contact Information

### COMPSTAT SECTORS

The city is divided into four sectors using Ocean Avenue & San Carlos as the dividing lines.

CompStat Commander- Mike Calhoun

## CARMEL BY THE SEA POLICE DEPARTMENT

# COMPSTAT

**Improving the quality of life for  
all of us in the community of  
Carmel-by-the-Sea.**

## Carmel Police Department Mission

- The mission of the Carmel Police Department is to protect and serve, with the primary responsibility of ensuring the rights of citizens and visitors to live in peace and safety.

## What is CompStat

- CompStat is an abbreviation for Computer Statistics.
- CompStat originated in the New York Police Department in 1994. The original plan was to modify conventional community policing ideology to better utilize resources, improve communication with the community and, as a result, lower crime rates and improve quality of life for the residents.
- The CompStat model has been adopted by many police agencies around the United States. Although it may be modified by each department to meet needs, the concept of reducing crime and improving quality of life remains the key focal point of the program.

## Carmel CompStat

We are fortunate to be living in an area with a lower crime rate than many other cities. Carmel CompStat will focus not only on lowering existing crime, but also to improve quality of life issues within the community. This can be achieved by police officers and the community working together to combat problems within our city. By utilizing information provided by citizens, the Police Department can work to improve life for all of us in Carmel -- residents, businesses and visitors alike.

The Police Department is here to serve the community and we want to make ourselves available to you.

## Goal of CompStat

The goal of CompStat is to develop a two-way communication between the police and the people we serve. The result of this communication will lead to lower crime rates and improved customer satisfaction. The Police Department also will provide educational training for businesses and citizens of Carmel by-the-Sea.

## How CompStat works

- Carmel has been divided into four sectors -- SW, SE, NW, and NE. The sectors are divided using Ocean Avenue to divide the North and South sectors and San Carlos Avenue to divide the East and West sectors.
- Department personnel are divided into one of the four sectors to form each team.
- Each team is overseen by a Sergeant with the overall program overseen by a Commander.
- Citizens, visitors, and business owners are encouraged to contact the police department regarding their concerns. The Police Department is dedicated to helping provide solutions to issues that affect you. You may contact us by calling the department, mailing or e-mailing your sector leader, or stopping by the Police Department to discuss your concerns.
- Remember: above all, the Carmel Police Department is ready to provide the safest environment possible for our entire community.
