

# COVID-19 Jobsite Infection Prevention Measures

The following infection prevention measures may help prevent COVID-19 transmission on the jobsite.

|   |   |
|---|---|
|    | <b>Stay home if you are sick. DO NOT GO TO WORK.</b>  |
|    | <b>Wear a face covering when working within 6 feet of others.</b>   |
|    | <b>Wash hands frequently with soap and water for at least 20 seconds, or use hand sanitizers with a minimum of 60% alcohol.</b>   |
|    | <b>Cover coughs and sneezes with your sleeve or other protective barrier.</b>   |
|   | <b>Practice Social Distancing by maintaining a minimum of 6 feet between people.</b>  |
|  | <b>Avoid groups and limit in-person meetings.</b>   |
|  | <b>Clean and disinfect frequently used tools, equipment, and frequently touched surfaces (door handles, handrails, controls, phones) on a regular basis</b>                     |
|  | <b>Use proper personal protective equipment (PPE) such as gloves and eye protection when working with cleaners and disinfectants. Do not mix cleaners and/or disinfectants.</b> |
|  | <b>Avoid sharing tools with others if possible.</b>   |
|  | <b>Minimize ride sharing. While in vehicle, ensure adequate ventilation.</b>  |
