

## Get your Digital Library Card Today on CardStar®

1. CardStar® is a simple solution for managing the plastic cards in your wallet, including your Library card. You can consolidate your membership and reward cards for national and regional merchants' stores that are CardStar® participants.
2. When you're ready to check out library material, you will have access to your card with a single touch from the CardStar® app home screen.
3. You can also use the StoCar or Key Ring app.

### **How to use it:**

1. Download the CardStar® application from your app store into your smart phone or other device.
2. After you get the application on your device click on it, and then click on the plus (+) in the upper right corner.
3. Type Harrison Memorial Library in the search box. Harrison Memorial Library will appear on the screen. Click on it.
4. A screen will appear with two different options: type the barcode from your library card or scan the number using your camera from your phone.
5. After you input that information click on done and you will be ready to use your digital card.
6. Every time you need to use your card at the library you just have to use your smart phone. Click on the CardStar® application, then on Harrison Memorial Library and your smart phone will display your digital card on the screen.
7. You will be able to add more libraries or merchants that are CardStar® participants the same way you added the Harrison Memorial Library to your device.
