

## CHAPTER 17.46

### WIRELESS FACILITIES WITHIN THE PUBLIC RIGHTS-OF-WAY

#### 17.46.010 Purpose and Intent

- A. The City Council intends this chapter to establish reasonable, uniform and comprehensive standards and procedures for wireless facilities deployment, construction, installation, collocation, modification, operation, relocation and removal within the City's public rights-of-way, consistent with and to the extent permitted under federal and California state law. The standards and procedures contained in this chapter are intended to, and should be applied, consistent with federal and state law, to protect and promote public health, safety and welfare, and balance the benefits that flow from robust, advanced wireless services with the City's local values, which include without limitation the aesthetic character of the City, its neighborhoods and community. This chapter is also intended to reflect and promote the community interest by (1) ensuring that an appropriate balance between public and private interest is maintained; (2) protecting the City's unique visual character and property values from potential adverse impacts and/or visual blight created and/or exacerbated by wireless communications infrastructure; (3) protecting and preserving the City's environmental resources; (4) protecting and preserving the City's public rights-of-way and municipal infrastructure located within the City's public rights-of-way; and (5) protecting and promoting the City's residential neighborhoods and other family-oriented environments, such as parks, trails and beaches; and (6) ensuring appropriate placement of high-quality, advanced wireless services for the City's residents, businesses and visitors
- B. This chapter is not intended to, nor shall it be interpreted or applied to: (1) prohibit or effectively prohibit any personal wireless service provider's ability to provide personal wireless services; (2) prohibit or effectively prohibit any entity's ability to provide any telecommunications service, subject to any competitively neutral and nondiscriminatory rules, regulations or other legal requirements for rights-of-way management; (3) unreasonably discriminate among providers of functionally equivalent personal wireless services; (4) deny any request for authorization to place, construct or modify personal wireless service facilities on the basis of environmental effects of radio frequency emissions to the extent that such wireless facilities comply with the FCC's regulations concerning such emissions; (5) prohibit any collocation or modification that the City may not deny under federal or California state law; (6) impose any unreasonable, discriminatory or anticompetitive fees that exceed the reasonable cost to provide the services for which the fee is charged; or (7) otherwise authorize the City to violate any applicable federal or California law.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

**17.46.020 Definitions**

The abbreviations, phrases, terms and words used in this chapter will have the following meanings assigned to them unless context indicates otherwise. Undefined phrases, terms or words in this chapter will have their ordinary meanings. All references to codified statutes, regulations or other rules shall be deemed to refer to such statutes, regulations or other rules as they may be amended or superseded.

The definitions in this chapter shall control over conflicting definitions for the same or similar abbreviations, phrases, terms or words as may be defined in this code. However, if any definition assigned to any phrase, term or word in this chapter conflicts with any federal or state-mandated definition, the federal or state-mandated definition will control.

- A. **“accessory equipment”** means equipment other than antennas used in connection with a wireless facility. The term includes “transmission equipment” as defined by the FCC in 47 C.F.R. § 1.6100(b)(8).
- B. **“amateur station”** means the same as defined by the FCC in 47 C.F.R. § 97.3, which defines the term as “a station in an amateur radio service consisting of the apparatus necessary for carrying on radiocommunications.” This term includes amateur radio antennas and related facilities used for amateur radio services.
- C. **“antenna”** means the same as defined by the FCC in 47 C.F.R. § 1.6002(b).
- D. **“approval authority”** means the City official or appointed/elected body responsible for application review and vested with authority to approve or deny such applications.
- E. **“architecturally integrated”** means stealth concealment that mimics the existing architecture, design, materials and finishes of the underlying structure such that the wireless facility appears to be something other than a wireless facility and part of the original building’s or structure’s design.
- F. **“arterials”** means a street designed to provide a high degree of mobility as major traffic carriers with access to collectors and some local streets. Arterials are typically the widest streets in terms of right-of-way and pavement width, and generally have the highest speed limits.
- G. **“City Administrator”** means City of Carmel-by-the-Sea City Administrator or the City Administrator’s designee.
- H. **“clear zone”** means an unobstructed, traversable roadside area that allows a driver to stop safely or regain control of a vehicle that has left the roadway.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- I. **“collector street”** means a road designed to serve as a connection between local and arterial streets and provides direct access to parcels.
- J. **“collocation”** means the same as defined by the FCC in 47 C.F.R. § 1.6002(g).
- K. **“CPUC”** means the California Public Utilities Commission established in the California Constitution, Article XII, § 5, or its duly appointed successor agency.
- L. **“decorative pole”** means any pole that includes decorative or ornamental features, design elements, and/or materials for aesthetic purposes.
- M. **“department”** means the Carmel-by-the-Sea Community Planning and Building Department.
- N. **“Director”** means the City of Carmel-by-the-Sea Community Planning and Building Director or the Director’s designee.
- O. **“eligible facilities request”** means the same as defined in 47 U.S.C. § 1455(a)(2), and as interpreted by the FCC in 47 C.F.R. § 1.6100(b)(3).
- P. **“environmentally controlled underground equipment vault”** means a below-grade chamber for electronic equipment that protects against heat, humidity, water intrusion and fire.
- Q. **“FCC”** means the “Federal Communications Commission”, as constituted by the Communications Act of 1934, Pub. L: 73-416, 48 Stat. 1064, codified as 47 U.S.C. §§ 151 *et seq.* or its duly appointed successor agency.
- R. **“Fire Safety Authority”** means Chief Building Official of the City of Carmel-by-the-Sea or the Fire Safety Authority’s designee.
- S. **“historic resource”** means any prehistoric or historic district, site, building, structure or object included in, or eligible for inclusion in, the National Register of Historic Places, the California Register of Historical Resources, the “Carmel Inventory of Historic Resources” or the “Carmel Inventory” as defined in code [Section 17.32.230](#), the “Carmel Register of Historic Resources” or the “Carmel Register” as defined in code [Section 17.32.230](#), or any “historic resource” or “historical resource” as defined in code [Section 17.32.230](#). The term includes artifacts, records and remains related to or located within such properties. The term also includes properties with traditional religious and/or cultural importance to any Native American tribe.
- T. **“local street”** means a street designed to provide access to adjacent land uses exclusively, and are not designed or intended to carry through-traffic or allow for high speeds. Typically, residential streets within neighborhoods are designed as local streets.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- U. “**ministerial permit**” means any City-issued non-discretionary permit required to commence or complete any construction or other activity subject to the City’s jurisdiction. Ministerial permits may include, without limitation, any building permit, construction permit, electrical permit, excavation permit, traffic control permit, encroachment permit and/or any similar over-the-counter approval issued by the City’s departments.
- V. “**non-pole concealment structure**” means a structure within the public rights-of-way, other than a pole, that can be adapted (either in its current form or through a replacement) to conceal antennas and/or accessory equipment for wireless facilities. Examples may include, without limitation, monuments, kiosks, bus shelters and other street furniture.
- W. “**OTARD**” means any “over-the-air reception device” subject to 47 C.F.R. §§ 1.4000 *et seq.*, which generally includes satellite television dishes and certain fixed wireless antennas not greater than one meter in diameter.
- X. “**personal wireless service facilities**” mean the same as defined in 47 U.S.C. § 332(c)(7)(C)(ii).
- Y. “**personal wireless services**” mean the same as defined in 47 U.S.C. § 332(c)(7)(C)(i).
- Z. “**persons entitled to notice**” means (1) all real property owners as shown on the most recent equalized assessment roll within 300 feet from the location where a wireless facility is proposed; and (2) all legal occupants of properties within 300 feet from the location where a wireless facility is proposed. Mailed notice will be deemed given to real property owners when sent to the address listed on the most recent equalized assessment roll. Mailed notice will be deemed given to the real property’s occupants when sent to the real property’s physical address.
- AA. “**prohibited support structure**” means any support structure on which the City prohibits the deployment of wireless facilities, except when authorized as a pre-approved design pursuant to this chapter. Prohibited support structures include decorative poles; traffic signal poles, cabinets and related structures; new, nonreplacement wood poles; and any utility pole scheduled or reasonably anticipated to be scheduled for removal within 18 months from the time the Director acts on the application for such pole.
- BB. “**public right-of-way**” or “**public rights-of-way**” means land or an interest in land which by deed, conveyance, agreement, easement, dedication, usage, or process of law is reserved for or dedicated to or open to the use by the general public for road or highway purposes. The term does not include private or public utility easements unless such easement is reserved for or dedicated to or open to the use by the general public for road or highway purposes.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- CC. “**RF**” means radio frequency.
- DD. “**Section 6409**” means Section 6409(a) of the Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96, 126 Stat. 156, codified as 47 U.S.C. § 1455(a).
- EE. “**shot clock**” means the time defined by the FCC in which a state or local government must act on an application or request for authorization to place, construct or modify personal wireless service facilities.
- FF. “**small wireless facility**” means same as defined by the FCC in 47 C.F.R. § 1.6002(l).
- GG. “**stealth**” means concealment elements, measures and techniques that mimic or blend with the underlying support structure, surrounding environment and adjacent uses to completely screen all transmission equipment from public view and architecturally integrate the wireless facility into the built environment such that, given the particular context, the average, untrained observer would not recognize the structure as a wireless facility. Stealth concealment techniques include, without limitation: (1) transmission equipment placed completely within existing or replacement architectural features such that the installation causes no visible change in the underlying support structure; (2) new architectural features that mimic or blend with the underlying or surrounding structures in style, proportion and construction quality; and (3) concealment elements, measures and techniques that mimic or blend with the underlying support structure, surrounding environment and adjacent uses.
- HH. “**visibility triangle**” means a triangle with two sides between 15 and 50 feet long (depending on the width of the street), starting at the corner where two curb lines intersect and extending out away from this corner intersection, but still following curb lines. The area within the triangle is one in which structures either cannot be placed or can be placed only if small enough to avoid obstructing the view of motorists and other public rights-of-way users entering and exiting the intersection.
- II. “**wireless facility**” means a personal wireless service facility.

**17.46.030 Applicability**

- A. **General.** This chapter applies to all requests for the City’s regulatory authorization to construct, install, operate, collocate, modify, relocate, remove or otherwise deploy wireless facilities within the public rights-of-way within the City’s territorial and jurisdictional boundaries, unless expressly exempted pursuant to this **Section 17.46.030**.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- B. **Wireless Facilities on City-Owned Property/Structures.** This chapter applies to permit applications, submitted to the City in its regulatory capacity, for wireless facilities on property or structures owned or controlled by the City and located within the public rights-of-way; provided, however, that this chapter does not govern whether or under what terms and conditions the City, in its capacity as the property or structure owner, would lease, license or otherwise allow a wireless facility on such property or structures.
- C. **Eligible Facilities Requests.** All eligible facilities requests for collocations or modifications to existing wireless facilities located within the public rights-of-way shall be exempt from this [Chapter 17.46](#) but subject to the provisions in [Chapter 17.47](#).
- D. **Other Exemptions.** This chapter shall not be applicable to the following:
1. wireless facilities operated by the City for public purposes;
  2. OTARD antennas;
  3. antennas and related transmission equipment used in connection with a duly authorized amateur station;
  4. wireless facilities or other transmission equipment owned and operated by CPUC-regulated electric companies for use in connection with electrical power, generation, transmission and distribution facilities subject to CPUC General Order 131-D;
  5. temporary wireless facilities parked in a fixed location within the public rights-of-way for no longer than 10 days under an approved special events permit pursuant to Chapter 12.48.

**17.46.040 Required Permits and Other Approvals**

- A. **ROW Design Review Approval.** A “ROW design review approval,” subject to the Director’s review and approval in accordance with this chapter, shall be required for all wireless facilities located in whole or in part within the public rights-of-way.
- B. **Other Permits and Approvals.** In addition to any permit or approval required under this chapter, the applicant must obtain all other permits and regulatory approvals (such as compliance with the California Environmental Quality Act) as may be required by any other federal, state, regional or local government agencies, which includes without limitation other any permits and/or approvals required by this code. Furthermore, any permit or approval granted under this chapter or deemed granted or deemed approved by law shall remain subject to

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

any and all lawful conditions and/or legal requirements associated with such other permits or approvals.

**17.46.050 Permit Applications**

- A. **Application Required.** The approval authority shall not approve any requests for authorization to construct, install, operate, collocate, modify, relocate, remove or otherwise deploy wireless facilities within the public right-of-way except upon a complete and duly filed application consistent with this section and any other written rules or requirements the City or the Director may establish from time to time in any publicly-stated format.
- B. **Application Content.** All applications for a permit must include all the information and materials required by the Director for the application. The Director is authorized to develop, publish and from time-to-time update or amend permit application requirements, forms, checklists, guidelines, informational handouts and other related materials that the Director finds necessary, appropriate or useful for processing any application governed under this chapter. All such requirements must be in written form and publicly stated and available. All applications shall, at a minimum, require the applicant to demonstrate that the proposed project will be in planned compliance with all applicable health and safety laws, regulations or other rules, which includes without limitation all building codes, electric codes and all FCC rules for human exposure to RF emissions.
- C. **Application Fee/Deposit.** The applicant shall submit the full application fee for an administrative design review approval established by City Council resolution at the time of application. If no application fee has been adopted at the time of application, then the applicant must submit a signed written statement that acknowledges that the applicant will be required to submit a deposit estimated by the Director to reimburse the City for its reasonable costs incurred in connection with the application. Should the deposit be inadequate, an additional deposit shall be required. If the deposit exceeds the actual costs, the difference will be refunded to the applicant.
- D. **Voluntary Pre-Application Conferences.** The Director shall provide prospective applicants with the opportunity to schedule and attend a pre-application conference with department staff. The City strongly encourages, but does not require, pre-application conferences for all proposed projects. This voluntary pre-application conference is intended to streamline the review process through informal discussion that includes, without limitation, the appropriate project classification and review process, any latent issues in connection with the proposed or existing wireless facility, such as compliance with generally applicable rules for public health and safety; potential stealth or concealment issues or concerns (if applicable); coordination with other City departments and/or divisions responsible for application review; and application completeness

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

issues. To mitigate unnecessary delays due to application incompleteness, applicants are encouraged (but not required) to bring any draft applications or other materials so that City staff may provide informal feedback and guidance about whether such applications or other materials may be incomplete or unacceptable. The Director shall use reasonable efforts to provide the applicant with an appointment within five working days after receiving a written request and any applicable fee or deposit to reimburse the City for its reasonable costs to provide the services rendered in the pre-application conference.

- E. **Application Submittal.** All applications submitted under this chapter must be submitted to the City at a pre-scheduled appointment with the Community Planning and Building Department. Applicants may submit one application per appointment but may schedule successive appointments for multiple applications whenever feasible and not prejudicial to other applicants. The Community Planning and Building Department shall use reasonable efforts to provide the applicant with an appointment in writing within five working days after the Community Planning and Building Department receives a written request. Any application received without an appointment, whether delivered in-person, by mail or through any other means, will not be considered duly filed whether the City retains the submitted materials or not.
- F. **Voluntary Community Meetings.** The City strongly encourages, but does not require, applicants to schedule, notice, arrange, and attend a voluntary community meeting with all interested members of the public. Community meetings may be conducted before or after submittal. This voluntary community meeting does not cause the FCC shot clock to begin and is intended to give applicants the opportunity to hear from members of the public regarding proposed project. Applicants should schedule any voluntary community meetings at times and in locations that are conducive to maximizing public participation. Applicants are encouraged (but not required) to bring any draft applications, plans, maps, presentations or other materials to facilitate the public's understanding of the applicant's proposed project. Applicants are also encouraged (but not required) to maintain minutes or a comment log of the community meeting. The City seeks to encourage dialogue that may allow applicants to address areas of concern and may lessen the likelihood of appeals. Public notice for a community meeting should be given in the manner described in [Section 17.46.060.C](#), except that the applicant is responsible for the cost and implementation of noticing.
- G. **Applications Deemed Withdrawn.** To promote efficient review and timely decisions, any application governed under this chapter will be automatically deemed withdrawn by the applicant when the applicant fails to tender a substantive response to the department within 90 calendar days after the department deems the application incomplete in a written notice to the applicant. The Director, in the Director's discretion, may grant a written extension for up to an additional 30 calendar days when the applicant submits a written request prior

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

to the 90th day that shows good cause to grant the extension. Good cause for an extension shall include, without limitation, delays due to circumstances outside the applicant's reasonable control.

**H. Peer and Independent Consultant Review.**

1. **Director's Authorization to Retain Consultants.** The Director is authorized to, in the Director's discretion, select and retain an independent consultant with specialized training, experience and expertise in telecommunications in connection with any permit application. The Director may request an independent consultant review on any issue that involves specialized or expert knowledge in connection with wireless facilities deployment or permit applications for wireless facilities, which include without limitation: (1) permit application completeness and/or accuracy; (2) compliance with applicable regulations for human exposure to RF emissions; (3) whether and to what extent a proposed project will comply with applicable laws; (4) the applicability, reliability and/or sufficiency of any information, analyses or methodologies used by the applicant to reach any conclusions about any issue with the City's discretion to review; and (5) any issues related to an exception requested by the applicant pursuant to [Section 17.46.110](#). The Director may request that the independent consultant prepare written reports, testify at public meetings, hearings and/or appeals and attend meetings with City staff and/or the applicant.
2. **City's Reimbursement; Standard Deposit Agreements.** Subject to applicable laws, if the Director elects to retain an independent consultant in connection with any permit application, the applicant shall be responsible for the actual and reasonable costs incurred by the City in connection with the services provided, which may include, without limitation, actual and reasonable costs incurred by the independent consultant to attend and participate in any meetings or hearings related to the permit application and the City's cost to administer the independent consultant contract. The Director is authorized to develop, publish and, from time-to-time, update a standard deposit agreement consistent with this [Section 17.46.050.H](#). The City shall not issue any building, construction or encroachment permits to any applicant with any unpaid deposit requests or invoices by the City.
3. **Independent Consultants Retained by Fire Safety Authority.** The Fire Safety Authority has the authority to select and retain an independent consultant with expertise and/or specialized training in fire safety and fire hazard mitigation and prevention satisfactory to the Fire Safety Authority in connection with any application. The Fire Safety Authority may request independent consultant review on any matter committed to the Fire Safety Authority for review or approval. Subject to applicable laws, if the Fire Safety Authority elects to retain an independent consultant in connection with any permit application, the applicant shall be responsible for the actual and

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

reasonable costs in connection with the services provided, which may include without limitation any actual and reasonable costs incurred by the independent consultant to attend and participate in any meetings or hearings. The same procedures for fee deposits, cost reimbursements and refunds to the applicant as described in this [Section 17.46.050.H](#) shall be applicable to independent consultant review required by the Fire Safety Authority.

**17.46.060 Public Notices**

- A. **Preface.** The City strongly favors public participation in the community development process, which requires effective public notice. However, federal regulations that generally require approvals or denials within a relatively short timeframe interfere with the City's ability to provide public notice and conduct public hearings in the same manner as the City would for other commercial development projects. To promote the City's and the community's legitimate interest in public participation, while at the same time enabling the City to act on applications within the timeframe prescribed by law, this [Section 17.46.060](#) establishes notice requirements designed to give interested parties notices through multiple mediums and at times intended to maximize such parties' ability to stay informed and exercise their right to be heard.
- B. **Posted Notice.** Within five business days after an application is duly filed with the department, the applicant shall: (1) post notice on the proposed project site in a location near to and visible from the public rights-of-way and (2) provide the department with evidence that such notice has been posted. The applicant is responsible for maintain and replacing the sign as necessary during the duration of the application review process until the approval authority acts on the application and all appeals have been exhausted. The sign shall be composed from durable quality and weather-resistant materials that will not deteriorate under normal circumstances for the duration of the notice period. The posted notice shall be at least two feet wide by three feet tall, placed in a conspicuous location at the project site where it will be visible from the nearest public right-of-way. The sign shall not be placed in any location where it would obstruct travel or visibility for vehicles, bicycles, pedestrians or other users in the public rights-of-way. The City encourages applicants to consult with the department on placement locations to avoid any potential hazards. In addition to the content requirements in [Section 17.46.060.F](#), the posted notice shall include a URL for the City's website page where application information can be obtained once uploaded in accordance with [Section 17.46.060.C\(2\)](#).
- C. **Application Submittal Notice.** Within approximately 10 calendar days after an application is received and before any approval or denial, the department shall: (1) mail public notice to all persons entitled to notice and (2) post public notice on the City's website by adding a link to the application materials on the City's general webpage for information about wireless facility applications. In addition to the general requirements in [Section 17.46.060.F](#), public notices required under

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

this Section [Section 17.46.060.C\(2\)](#) shall include information about when and how interested parties may file an appeal from a decision by the Director.

- D. **Public Hearing Notice.** At least 10 calendar days before a public hearing to consider an appeal, the department shall: (1) mail public notice to all persons entitled to notice and (2) publish notice in at least one newspaper of general circulation within the City. In addition to the general requirements in [Section 17.46.060.F](#), public notices required under this [Section 17.46.060.E](#) shall include the date, time and location for the public hearing and the URL to the project webpage on the City's website.
- E. **Decision Notice.** Within five calendar days after the approval authority acts on an application governed under this Policy or before the shot clock expires (whichever occurs first), the Director shall send a written notice to the applicant and all persons entitled to notice. If the approval authority denies the application (with or without prejudice), the written notice to the applicant must contain the reasons for the denial. All notices under this [Section 17.46.060.D](#) shall include instructions for how and when to file an appeal.
- F. **Notice Content.** In addition to any other requirements, all notices required under [Section 17.46.060.B, C and D](#) shall include: (1) the project location with both an approximate street location and GPS coordinates; (2) the City's permit application number; (3) a general project description with photo simulations; (4) the applicant's identification and contact information as provided on the application submitted to the City; (5) contact information for the department for interested parties to request additional information and submit comments; and (6) a statement as to whether a public hearing will be required for the application or not (considered administratively).

**17.46.070 Approvals, Denials and Appeals**

- A. **Initial Administrative Decision.** The Director may approve, conditionally approve, or deny a complete and duly filed permit application for a ROW administrative design review approval without a public hearing. To allow interested persons with a meaningful opportunity to appeal the approval authority's decision, the approval authority shall act within 29 shot clock days from a duly filed permit application for a ROW administrative design review approval.
- B. **Required Findings for Approval.** The approval authority may approve or conditionally approve an application for a ROW administrative design review approval only when it makes all the following findings:
1. the proposed project will not be in conflict with the City's general plan;

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

2. the proposed project will comply with all zoning standards applicable to the proposed project and zoning district closest to the proposed location;
  3. the proposed project will not be injurious to public health, safety or welfare;
  4. the proposed project will be in the most preferred location as defined in this chapter that is technically feasible and potentially available;
  5. the proposed project will not be in conflict with the City's Local Coastal Program;
  6. the applicant has shown that it can obtain any wireline communications and electrical service connections necessary to operate the proposed wireless facility and the project plans show the proposed route for all such connections between their source and the proposed wireless facility;
  7. the applicant has demonstrated that the proposed wireless facility will be in compliance with all applicable FCC regulations and guidelines for human exposure to RF emissions and will not, either individually or cumulatively with other transmitters in the vicinity, result in RF exposures that exceed the FCC's maximum permissible exposure level for the general population; and
  8. all public notices required for the application have been given.
- C. **Conditional Approvals; Denials Without Prejudice.** Subject to any applicable federal or state laws, nothing in this chapter is intended to limit the approval authority's ability to conditionally approve or deny without prejudice any application governed under this chapter as may be necessary or appropriate to protect and promote the public health, safety and welfare, and to advance the goals or policies in the general plan and any applicable specific plan and/or this code.
- D. **Appeals.** Any interested person may appeal the Director's decision to the City Council pursuant to the procedures in [Section 17.54.040.C](#), except that [Section 17.54.040.C](#) is modified for the purposes of this [Section 17.46.070.D](#) to provide that: (1) an appeal notice must be filed with the City Clerk within 7 calendar days from the date of the Director's decision; (2) the notice must contain a short and plain statement about the basis for the appeal, which may be supplemented after the notice period has expired but before the appeal hearing; (3) appeals from an approval shall not be permitted when based on reasons otherwise compliant under this chapter, including appeals based on duly adopted preapproved designs or the environmental effects from RF emissions that are compliant with applicable FCC regulations and guidelines; and (4) the City Council shall hear appeals *de novo* and issue the applicant and any person entitled to notice a written decision within five calendar days after the appeal hearing. If the City Council denies the application on appeal (whether by affirmation or reversal), the

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

written notice shall contain the reasons for the decision. The City Council's decision shall be final and not subject to any further City appeals or petitions for reconsideration.

**17.46.080 Location Standards**

A. **Locations.** To assist applicants, staff and the approval authority understand and respond to the community's aesthetic preferences and values, this **Section 17.46.080.A** describes preferred and discouraged locations for wireless facilities in the public rights-of-way.

1. **Preferred Locations.** The City requires wireless facilities in the public rights-of-way to be installed at locations, ordered from most preferred to least preferred, as follows:

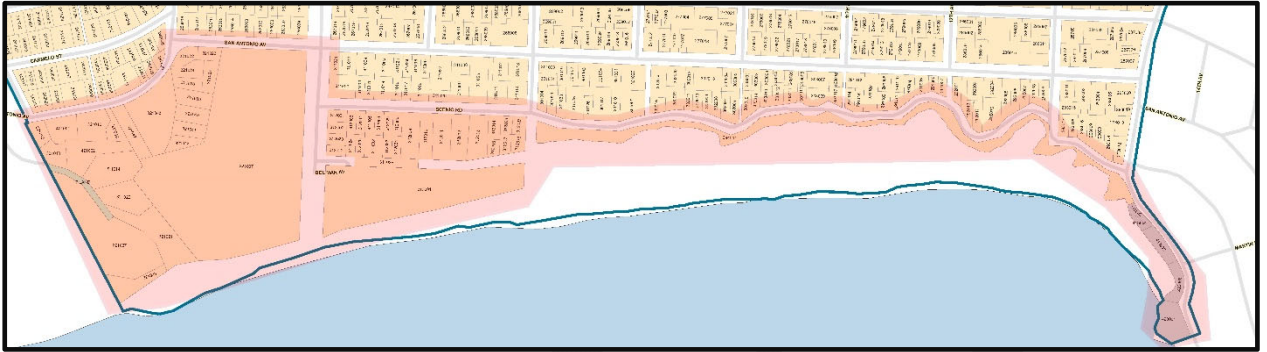

- a. locations within "Central Commercial" zones on or along arterials;
- b. locations within "Central Commercial" zones on or along collectors;
- c. locations within "Central Commercial" zones on or along local streets;
- d. locations within "Service Commercial" zones on or along arterials;
- e. locations within "Service Commercial" zones on or along collectors;
- f. locations within "Service Commercial" zones on or along local streets;
- g. locations within "Community and Cultural" zones on or along arterials;
- h. locations within "Community and Cultural" zones on or along collectors;
- i. locations within "Community and Cultural" zones on or along local streets;
- j. locations within "Residential and Limited Commercial" zones on or along arterials;
- k. locations within "Residential and Limited Commercial" zones on or along collectors;
- l. locations within "Residential and Limited Commercial" zones on or along local streets.

2. **Discouraged Locations.** Applicants shall not propose to install wireless facilities in a discouraged location in the public rights-of-way unless an exception under **Section 17.46.110** applies. If a facility must be placed in a discouraged location, the applicant shall use the least-discouraged location

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

that is technically feasible and potentially available. The following locations are discouraged, and ordered from least discouraged to most discouraged:

- a. any location on or within 250 feet from a historic resource;
- b. any location within the area depicted in Figure A;

**Figure A**

- c. locations within “Natural Parklands and Preserves” and “Improved Parklands” zones on or along arterials;
  - d. locations within “Natural Parklands and Preserves” and “Improved Parklands” zones on or along collectors;
  - e. locations within “Natural Parklands and Preserves” and “Improved Parklands” zones on or along local streets;
  - f. locations within “Single-Family Residential,” “Multi-Family Residential,” “Senior Citizen Facility” and “Theatrical” zones on or along arterials;
  - g. locations within “Single-Family Residential,” “Multi-Family Residential,” “Senior Citizen Facility” and “Theatrical” zones on or along collectors;
  - h. locations within “Single-Family Residential,” “Multi-Family Residential,” “Senior Citizen Facility” and “Theatrical” zones on or along local streets;
  - i. any location within 300 feet from a structure approved for use as a dwelling.
3. **Additional Location Standards.** In addition to all other location standards in this [Section 17.46.080](#), wireless facilities and all associated antennas, accessory equipment or improvements in the public rights-of-way shall:
- a. be placed as close as possible to alignment with the property line that divides two parcels abutting the public rights-of-way

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- b. not be placed directly in front of any ground-level door;
- c. not be placed directly in front of any first- or second-story window;
- d. on arterials, be placed as close to mid-block as technically feasible and consistent with the other location requirements in this Policy;
- e. not be placed within any clear zone at any intersections;
- f. not be placed within any visibility triangle area that crosses a front property line and blocks visibility above 42 inches from grade level;
- g. not be placed in any location that obstructs views of any traffic signs or signals;
- h. for new, non-replacement support structures, be placed at least 50 feet from any utility pole or other similar support structure;
- i. not be placed within a 250-foot radius from another wireless facility within the public rights-of-way;
- j. be placed at least five feet away from any driveway or walkway between a residential structure and the public right-of-way (e.g. the walkway between the sidewalk and the front door to a residence);
- k. be placed at least 10 feet away from any driveways for police stations, fire stations, or other emergency responder facilities;
- l. not be placed in a location that would unreasonably interfere with or impede the pedestrian path of travel;
- m. not be placed in any location that would physically interfere with or impede access to any: (i) above-ground or underground infrastructure for traffic control, or public transportation, including, without limitation, any curb control sign, parking meter, vehicular traffic sign or signal, pedestrian traffic sign or signal, barricade reflectors; (ii) public transportation vehicles, shelters, street furniture, or other improvements at any public transportation stop; (iii) above-ground or underground infrastructure owned or operated by any public or private utility agency; (iv) fire hydrant or water valve; (v) doors, gates, sidewalk doors, passage doors, stoops, or other ingress and egress points to any building appurtenant to the right-of-way; or (vi) fire escape.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- B. **Support Structures.** This **Section 17.46.080.B** describes preferred and prohibited support structures.
1. **Support Structure Preferences.** The City requires wireless facilities in the public rights-of-way to be installed on support structures, ordered from most preferred to least preferred, as follows:
    - a. existing or replacement non-pole concealment structures, such as monuments, kiosks, bus shelters and other street furniture;
    - b. existing or replacement utility poles; and
    - c. new, non-replacement non-pole concealment structures.
  2. **Prohibited Support Structures.** Wireless facilities shall not be installed on prohibited support structures. .
- C. **New and Replacement Pole Locations.** All new and replacement poles must be: (1) if a replacement pole, located as close to the removed pole's location as possible; (2) aligned with the other existing poles along the public right-of-way; (3) designed to resemble existing poles, including an overall height that is no greater than the replaced pole or, if a new pole, the nearest adjacent pole; and (4) compliant with all applicable standards and specifications issued by the City, which may include, without limitation, requirements related to aesthetics, materials and safety. Notwithstanding anything in this subsection to the contrary, the Director may approve a deviation from the foregoing requirements if, in the Director's discretion, an alternative placement location would result in a more aesthetically desirable outcome consistent with the goals of this chapter.
- D. **Encroachments Over Private Property.** No wireless facility, or any antenna, accessory equipment or other improvements associated with a wireless facility, may extend onto or over any private or public property outside the public right-of-way without the property owner's prior written consent.

**17.46.090 Design Standards**

- A. **General Design Standards.** The standards in this **Section 17.46.090.A** shall be applicable to all wireless facilities in the public rights-of-way:
1. **Stealth/Concealment.** All wireless facilities must be stealth to the maximum extent feasible.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

2. **Least Visible Equipment.** The applicant must use the smallest and least visible antennas and accessory equipment possible to accomplish the coverage objectives.
3. **Overall Height.** No equipment associated with a wireless facility may extend more than six feet above the support structure, plus any minimum separation between the antenna and other pole attachments required by applicable health and safety regulations.
4. **Finishes.** All exterior surfaces shall be painted, colored, and/or wrapped in flat, non-reflective hues that match the underlying support structure or blend with the surrounding environment. All exterior surfaces on wireless facilities shall be constructed from, or coated with, graffiti-resistant materials. All finishes shall be subject to the approval authority's prior approval.
5. **Noise.** All wireless facilities must be compliant with all applicable noise regulations, which includes without limitation any noise regulations in the Code. Equipment likely to create noise, such as cooling fans, are strongly discouraged except when placed in an underground vault. The approval authority may require the applicant to incorporate appropriate noise-baffling materials and/or noise-mitigation strategies to avoid any ambient noise from equipment reasonably likely to exceed the applicable noise regulations.
6. **Lights.** Wireless facilities may not include exterior lights other than as may be required under FAA, FCC or other applicable federal or state governmental regulations. All antennas, accessory equipment, and other improvements with indicator, status or other lights must be installed in locations and within enclosures that eliminate illumination impacts visible from publicly accessible areas. Any beacons or lighting arresters shall be included in the overall height calculation.
7. **Trees and Landscaping.** Wireless facilities shall not be installed (in whole or in part) within any tree drip line. Wireless facilities may not displace any existing tree or landscape and/or hardscape features. All wireless facilities proposed to be placed in a landscaped area in the public rights-of-way must include landscape features (which may include, without limitation, shrubs and ground cover) and a landscape maintenance plan. The existing native vegetation shall be maintained to the maximum extent feasible. The approval authority may require additional landscape or hardscape features for wireless facilities proposed to be placed in a landscaped area in the public rights-of-way to screen the wireless facility from public view, avoid or mitigate potential adverse impacts on adjacent properties or otherwise enhance the stealth techniques required under this chapter. All plants proposed or required must be native and/or drought-resistant and be consistent with any landscaping requirements for the underlying zone.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

8. **Signs; Decals; Advertisements.** All wireless facilities must include signage that accurately identifies the equipment owner/operator, the owner/operator's site name or identification number, and a toll-free number to the owner/operator's network operations center. Wireless facilities may not bear any other signage, decals or advertisements unless expressly approved by the approval authority, required by law, or recommended under FCC or other federal governmental agencies for compliance with RF emissions regulations.
9. **Security Measures.** To prevent unauthorized access, theft, vandalism, attractive nuisance or other hazards, reasonable and appropriate security measures, such as locks, removable climbing pegs and anti-climbing devices may be approved. Security measures shall be designed and implemented in a manner that enhances or contributes to the overall stealth techniques, and the approval authority may condition approval on additional stealth elements to mitigate any aesthetic impacts, which may include, without limitation, additional landscape or hardscape features. The approval authority shall not approve any barbed wire, razor ribbon, electrified fences, or any similar security measures. Cabinets and equipment shrouds must be kept secured to prevent unauthorized access. Alarm systems shall not include any audible sirens or other sounds.
10. **Secondary Power Sources.** The approval authority may approve secondary or backup power sources on a case-by-case basis. The approval authority shall not approve any permanent diesel generators within the public rights-of-way or at any other location or within 200 feet from any residence; provided, however, the approval authority may approve sockets or other connections used for temporary backup generators.
11. **Parking.** Wireless facilities and any associated accessory equipment or other improvements shall not reduce any street parking spaces within the public rights-of-way.
12. **Fire Safety.** All wireless facilities shall include (a) a power shut off immediately accessible to fire service personnel, through a Knox box or similar rapid-access system approved by the Fire Safety Authority, upon arrival at the scene of a fire and/or anticipated power surge due to power being turned off or on for any reason; (b) surge protection devices capable of mitigating a direct or partial direct lightning discharge; (c) surge protection devices capable of mitigating significant electrical disturbances that may enter the wireless facility via conductive cables; (d) at least one-hour fire resistant interior surfaces to be used in the composition of all structures; and (5) monitored automatic fire notification and suppression systems for all wireless facilities as approved by the applicable Fire Safety Authority.
13. **Compliance with Laws.** All wireless facilities must be designed and sited in compliance with all applicable federal, state, regional and local laws,

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

regulations, rules, restrictions and conditions, which includes without limitation the California Building Standards Code, Americans with Disabilities Act, the general plan and any applicable specific plan, the Code and any conditions or restrictions in any permit or other governmental approval issued by any public agency with jurisdiction over the project.

- B. **Antennas.** In addition to all generally applicable design standards in [Section 17.46.090.A](#), this [Section 17.46.090.B](#) sets out specific preferences and standards for antennas.
1. **Placement.** Antennas should be placed above the pole, unless the approval authority finds that: (a) such placement above the pole would significantly impair views of importance, including but not limited to historic resources, scenic corridors or the Pacific Ocean; or (b) an alternative placement, including but not limited to affixed to the side of the pole, results in an aesthetically superior design based on site-specific circumstances.
  2. **Stealth/Concealment.** All antennas and associated cables, jumpers, wires, mounts, masts, brackets and other connectors and hardware must be installed within a unified shroud or “radome” to the extent technically feasible. Antenna shrouds must be visually consistent with the underlying pole’s design, color and scale. Antenna shrouds placed above a pole must taper down to the point where the shroud and pole connect to conceal the cables below the antennas and create a smooth transition into the pole. All antenna mounting posts shall be trimmed so that the post does not extend above the antenna. For antennas approved to be affixed to the side of the pole within a shroud, all cables must be concealed within the shroud and the extension arm, if any, to create a smooth transition into the pole, to the maximum extent feasible, or back into the external conduit on the pole, if any.
  3. **Volume.** Any individual antenna (including any shroud or other stealth or concealment device) shall not exceed three cubic feet in volume. The cumulative limit for all antennas (including their shrouds or other stealth or concealment devices) on a single wireless facility shall not exceed: (a) three cubic feet for wireless facilities within 250 feet from a residential dwelling; or (b) six cubic feet for wireless facilities in all other locations.
- C. **Accessory Equipment.** In addition to all generally applicable design standards in [Section 17.46.090.A](#), this [Section 17.46.090.C](#) sets out specific preferences and standards for accessory equipment.
1. **Placement Preferences.** This subsection describes the City’s general preferences for accessory equipment placement and configuration on or around the pole. Applicants shall propose wireless facilities in compliance with these preferences to the maximum extent feasible. The approval authority may approve a lesser-preferred configuration for the accessory

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

equipment when the applicant demonstrates that more-preferred configurations are technically infeasible or the approval authority finds that a lesser-preferred configuration is more consistent with existing poles and the surrounding environment. The City generally prefers accessory equipment to be placed, ordered from most preferred to least preferred, as follows:

- a. within an environmentally controlled underground equipment vault;
  - b. within an architecturally integrated enclosure at the base of the pole;
  - c. within a shroud mounted above ground level on the pole;
  - d. within a separate surface-mounted equipment cabinet.
2. **Volume.** The cumulative limit for all accessory equipment (including their shrouds, cabinets or other stealth or concealment devices) on a single wireless facility shall not exceed: (a) 10 cubic feet for wireless facilities within 250 feet from a residential dwelling; or (b) 17 cubic feet for wireless facilities in all other locations. These limits shall not be applicable to undergrounded accessory equipment.
3. **Undergrounded Equipment.** Consistent with CPUC and local policies, the City strongly prefers undergrounded accessory equipment whenever possible because it mitigates unnecessary physical obstructions and aesthetic harm caused by unsightly infrastructure in the public rights-of-way. This **Section 17.46.090.C.3** sets out specific preferences and standards for undergrounded accessory equipment.
- a. **Where Required.** Accessory equipment (other than any electric meter (where permitted) and an emergency disconnect switch) shall be placed underground when proposed in any (i) underground utility district; (ii) any area where all existing utilities are substantially undergrounded; or (iii) any location where the approval authority finds substantial evidence that the additional above-ground accessory equipment would incommode the public's uses in the public right-of-way.
  - b. **Equipment Vaults.** All undergrounded accessory equipment must be installed in an environmentally controlled vault that is load-rated to meet the City's standards and specifications. Underground vaults located beneath a sidewalk must be constructed with a slip-resistant cover and properly secured to prevent unauthorized access. Vents for airflow shall be flush-to-grade when placed within the sidewalk and may not exceed two feet above grade when placed off the sidewalk. Vault lids may contain manufacturer and site operator information but shall not exhibit commercial advertisements.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

4. **Pole-Mounted Accessory Equipment.** This [Section 17.46.090.C.4](#) sets out specific preferences and standards for pole-mounted accessory equipment.
  - a. **Stealth/Concealment.** Applicants should propose to place any pole-mounted accessory equipment using stealth to the maximum extent feasible with concealment elements and in the least conspicuous position under the circumstances presented by the proposed pole and location. Pole-mounted accessory equipment may be installed behind street, traffic, or other signs to the extent that the installation complies with applicable public health and safety regulations. Unless placed behind a street sign or some other concealment that dictates the equipment orientation on the pole, all pole-mounted accessory equipment should be oriented away from prominent views. If more than one orientation would be technically feasible, the Director may select the most appropriate orientation.
  - b. **Minimum Ground Clearance.** The lowest point on any pole-mounted accessory equipment shall be at least 10 feet above ground level at the base of the pole. If applicable laws require any pole-mounted accessory equipment component to be placed less than 10 feet above ground level, the clearance from ground level shall be no less than required for compliance with such laws.
  - c. **Horizontal Extensions.** Pole-mounted accessory equipment should be as close to flush with the pole as technically feasible and shall not extend over any roadway for vehicular travel or any abutting private property. If applicable laws preclude flush-mounted accessory equipment, the separation gap between the pole and the accessory equipment shall be no greater than required for compliance with such laws and concealed by opaque material (such as cabinet “flaps” or “wings”).
  
5. **Base-Mounted Accessory Equipment.** This [Section 17.46.090.C.5](#) sets out specific preferences and standards for base-mounted accessory equipment.
  - a. **Stealth/Concealment.** Base-mounted accessory equipment enclosures must be stealth to the maximum extent feasible and architecturally integrated with the pole and surrounding environment. For poles that already include a larger or decorative base, the base-mounted accessory equipment enclosure should mimic the existing design and/or decorative features. Base-mounted accessory equipment enclosures should include a tapered or decorative transition between the enclosure and the pole, unless (i) the proposed facility is a pre-approved design that does not include such a transition or (ii) the approval authority finds that such a transition would be less aesthetically desirable considering the pole and surrounding environment.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- b. **Maximum Dimensions.** Any base-mounted accessory equipment enclosure integrated into the pole shall not exceed the following dimensions: (i) 48 inches in height, measured from grade level to the highest point on the enclosure, but excluding any decorative design elements that transition the wider base into the narrower pole; and (ii) 26 inches in length or width on any rectangular enclosure or 28 inches in diameter for any round, hexagonal, octagonal or similarly shaped enclosure.
  - c. **Graffiti and Litter Prevention.** Base-mounted accessory equipment enclosures must be coated with anti-graffiti finishes. To prevent litter and other objects placed on such equipment, base-mounted accessory equipment enclosures should not have any flat horizontal surfaces greater than 1.5 square inches.
6. **Surface-Mounted Equipment Cabinets.** This **Section 17.46.090.C.6** sets out specific preferences and standards for surface-mounted accessory equipment.
- a. **Stealth/Concealment.** Concealment for surface-mounted equipment cabinets will be assessed on a site-specific basis and consider the location and existing uses and aesthetic elements in the vicinity. In general, the City prefers surface-mounted accessory equipment to be stealth to the maximum extent feasible with concealment elements as follows: (i) within a landscaped parkway, median, or similar location, behind or among new/existing landscape or hardscape features, as approved by the approval authority, and painted “Frazee Malaga Green” or powder coated matching Classic RAL System RAL 6012 “Black Green” or wrapped in flat natural colors to blend with the landscape features; (ii) if landscaping concealment is not technically feasible, disguised as other street furniture adjacent to the support structure, such as, for example, mailboxes, benches, trash cans, and information kiosks; and (iii) if neither landscaping concealment or street furniture is available, accessory equipment should be completely shrouded or placed in a cabinet substantially similar in appearance to existing surface-mounted accessory equipment cabinets in the vicinity.
  - b. **Public Safety.** To promote and protect public health and safety and prevent potential hazards hidden behind large equipment cabinets, individual surface-mounted accessory equipment cabinet may not exceed four feet in height or four feet in width. Surface-mounted accessory equipment enclosures must be coated with anti-graffiti finishes. Surface-mounted accessory equipment enclosures should not have any flat horizontal surfaces greater than 1.5 square-inches to prevent litter and other objects placed on such equipment.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- D. **Utilities.** The provisions in this **Section 17.46.090.D** are applicable to all utilities and other related improvements that serve wireless facilities.
1. **Overhead Lines.** The approval authority shall not approve any new overhead utility lines in underground utility districts. In areas with existing overhead lines, new communication lines shall be “overlashed” with existing communication lines, but service conduits shall be placed underground. No new overhead utility service drops shall be permitted to traverse any roadway used for vehicular transit.
  2. **Vertical Cable Risers.** All cables, wires, and other connectors must be routed through conduits within the pole or other support structure, and all conduit attachments, cables, wires, and other connectors must be concealed from public view. To the extent that cables, wires, and other connectors cannot be routed through the pole, such as with wood utility poles, applicants shall route them through external conduits or shrouds that have been finished to match the underlying pole. The applicant shall minimize the number and size of external conduits to the extent technically feasible.
  3. **Spools and Coils.** To reduce clutter and deter vandalism, excess fiber optic or coaxial cables shall not be spooled, coiled, or otherwise stored on the pole outside equipment cabinets or shrouds.
  4. **Electric Meters.** Wireless facilities shall use flat-rate electric service or other method that obviates the need for a separate above-grade electric meter. If flat-rate service is not available, applicants may install a shrouded smart meter, or if a shrouded smart meter is not available, a separate meter pedestal per City standards. If the proposed project involves a surface-mounted equipment cabinet, an electric meter may be integrated with the cabinet, but the approval authority shall not approve a separate surface-mounted electric meter pedestal. In no case shall the applicant be permitted to use electricity/power provided by a City-owned circuit without separate written authorization from the City.
  5. **Existing Underground Conduits.** To reduce unnecessary wear and tear on the public rights-of-way, applicants are encouraged to use existing conduits whenever available and technically feasible. Access to any conduit owned by the City shall be subject to a separate written agreement and the Director’s prior written approval, which the Director may withhold or condition as the Director deems necessary or appropriate to protect the City’s infrastructure, prevent interference with the City’s municipal functions, and public health and safety.
- E. **Historic Resources.** This chapter shall not be construed or applied to limit the City’s authority to enforce other laws or regulations intended to protect or preserve historic resources. Any wireless facility that adversely impacts any

ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY

historic resource shall not be approved without an exception pursuant to [Section 17.46.110](#).

**17.46.100 Standard Conditions for Approved Permits**

- A. **General.** Except as may be authorized in [Section 17.46.100.B](#), all wireless facilities approved under this chapter or deemed approved by the operation of law shall be automatically subject to the following conditions:
1. **Permit Term.** This permit will automatically expire 10 years and one day from its issuance unless the City establishes a shorter term for public safety or substantial land use reasons pursuant California Government Code § 65964(b). Any other permits or approvals issued in connection with any collocation, modification or other change to this wireless facility, which includes without limitation any permits or other approvals deemed-granted or deemed-approved under federal or state law, will not extend this term limit unless expressly provided otherwise in such permit or approval or required under federal or state law. No change in ownership of the wireless facility, the site, or the subject property shall affect the permit term. This permit may not be transferred to another site or property.
  2. **Permit Renewal.** The permittee may apply for permit renewal not more than one year before this permit expires. The permittee must demonstrate that the subject wireless facility has complied with all the conditions of approval associated with this permit and will comply with all applicable provisions in this code that exist at the time the decision to renew or not renew is rendered. The Director may modify or amend the conditions on a case-by-case basis as may be necessary or appropriate to ensure compliance with this code or other applicable laws. Upon renewal, this permit will automatically expire 10 years and one day from its issuance. Additional permit renewals shall be subject to the procedures in this condition.
  3. **Future Collocations.** The permittee shall be willing to allow other carriers and site operators to collocate transmission equipment with the wireless facility, to the extent such facility or portions thereof are owned or controlled by the permittee, whenever technically feasible and aesthetically desirable in accordance with applicable provisions in this code.
  4. **CPUC GO-159A Certification.** Within 15 business days after the City issues a permit, the permittee shall serve copies of California Public Utility Commission notification letters required by CPUC General Order No. 159A to the City Clerk, Director and City Administrator.
  5. **City's Standing Reserved.** The City's grant or grant by operation of law of a permit does not waive, and shall not be construed to waive, any standing by

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

the City to challenge any provision in federal or state law or any interpretation thereof.

6. **Compliance with Approved Plans.** Before the permittee submits any applications to the building official required to commence construction in connection with this permit, the permittee must incorporate this permit, all conditions associated with this permit and any approved photo simulations into the project plans (the “**Approved Plans**”). The permittee must construct, install and operate the wireless facility in strict compliance, as determined by the approval authority, with the Approved Plans. Any alterations, modifications or other changes to the Approved Plans, whether requested by the permittee or required by other departments or public agencies with jurisdiction over the wireless facility, must be submitted in a written request subject to the Director’s prior review and approval. After the Director receives a written request to approve an alteration, modification or other change to the Approved Plans, the Director may refer the request to the original approval authority if the Director finds that it substantially deviates from the Approved Plans or implicates a significant or substantial land-use concern.
7. **Build-Out Period.** This permit will automatically expire 36 months from the approval date (the “**Build-Out Period**”) unless the permittee obtains all other permits and approvals required to install, construct and/or operate the approved wireless facility, which includes without limitation any permits or approvals required by any federal, state or local public agencies with jurisdiction over the subject property, support structure or the wireless facility and/or its use. The permittee may request in writing, and the Director may grant in writing, one six-month extension to the Build-Out Period if the permittee submits, at least 30 days prior to the automatic expiration date in this condition, substantial and reliable written evidence demonstrating justifiable cause for the six-month extension submitted. If the Build-Out Period (and any extension) finally expires, the permit shall be automatically void but the permittee may resubmit a complete application, which includes without limitation all application fees, for the same or a substantially similar project.
8. **Pre-Installation Requirements.** In addition to obtaining all other permits and approvals required to install, construct and/or operate the approved wireless facility, which includes without limitation any permits or approvals required by any federal, state or local public agencies with jurisdiction over the subject property, the wireless facility or its use, the permittee shall, prior to commencement of any installation or construction, attend a pre-grading meeting with the Public Works Department regarding temporary Best Management Practices (“**BMPs**”) pertaining to discharges from the construction site. Before the permittee can proceed with installation or construction of the approved wireless facility, the Public Works Department must inspect and approve the permittee’s installation of such temporary BMPs.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

9. **Post-Installation Certification.** Within 60 calendar days after the permittee commences full, unattended operations at the wireless facility, the permittee shall provide the Director with documentation reasonably acceptable to the Director that the wireless facility has been installed and/or constructed in strict compliance with the Approved Plans. Such documentation shall include, without limitation, as-built drawings prepared by a California licensed civil engineer, GIS data and site photographs. In a written notice to the permittee, the Director shall either certify that the wireless facility complies with the Approved Plans or order the permittee to correct any noncompliance.
10. **Site Maintenance.** The permittee shall keep the site, which includes without limitation any and all improvements, equipment, structures, access routes, fences, hardscape and landscape features, in a neat, clean, safe and code compliant condition in accordance with the Approved Plans and all conditions in this permit. The permittee shall keep the site area free from all litter and debris at all times. The permittee shall regularly inspect the site to determine whether any maintenance is needed. The permittee shall perform any maintenance requested by the City for compliance with this condition within a reasonable time specified by the Director in a written notice to the permittee. Routine maintenance within residential zones shall be restricted to normal construction work hours specified in this code. The permittee, at no cost to the City, shall remove and remediate any graffiti or other vandalism at the site within 48 hours after the permittee receives notice or otherwise becomes aware that such graffiti or other vandalism occurred.
11. **Landscape Features.** The permittee shall replace any landscape features damaged or displaced by the construction, installation, operation, maintenance or other work performed by the permittee or at the permittee's direction on or about the site. If any trees are damaged or displaced, the permittee shall hire and pay for a licensed arborist to select plant and maintain replacement landscaping in an appropriate location for the species. Any replacement tree must be substantially the same size as the damaged tree or as otherwise approved by the City. The permittee shall, at all times, be responsible to maintain any replacement landscape features.
12. **Compliance with Applicable Laws.** The permittee shall maintain compliance at all times with all federal, state and local statutes, regulations, orders or other rules that carry the force of law ("**Laws**") applicable to the permittee, the subject property, the wireless facility or any use or activities in connection with the use authorized in this permit, which includes without limitation any Laws applicable to human exposure to RF emissions and any standards, specifications or other requirements identified by the Director (such as, without limitation, those requirements affixed to an encroachment permit). If the Director finds good cause to believe that the wireless facility is not in compliance with any Laws applicable to human exposure to RF

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

emissions, the Director may require the permittee to submit a written report certified by a qualified radio frequency engineer familiar with the wireless facility that certifies that the wireless facility is in compliance with all such Laws. The Director may order the facility to be powered down if, based on objective evidence, the Director finds that the wireless facility is in fact not in compliance with any Laws applicable to human exposure to RF emissions until such time that the permittee demonstrates actual compliance with such Laws. The permittee expressly acknowledges and agrees that this obligation is intended to be broadly construed and that no other specific requirements in these conditions are intended to reduce, relieve or otherwise lessen the permittee's obligations to maintain compliance with all Laws. No failure or omission by the City to timely notice, prompt or promptly enforce compliance with any applicable provision in this code, this chapter, any permit, any permit condition or any applicable Laws or regulations, shall be deemed to relieve, waive or lessen the permittee's obligation to comply in all respects with all applicable provisions in this code, this chapter, any permit, any permit condition or any applicable Laws or regulations.

13. **Adverse Impacts on Other Properties.** The permittee shall use all reasonable efforts to avoid any and all unreasonable, undue or unnecessary adverse impacts on nearby properties that may arise from the permittee's or its authorized personnel's construction, installation, operation, modification, maintenance, repair, removal and/or other activities on or about the site. The permittee shall not perform or cause others to perform any construction, installation, operation, modification, maintenance, repair, removal or other work that involves heavy equipment or machines except during normal construction work hours authorized by this code. The restricted work hours in this condition will not prohibit any work required to prevent an actual, immediate harm to property or persons, or any work during an emergency declared by the City or other state or federal government agency or official with authority to declare an emergency within the City. The Director may issue a stop work order for any activities that violates this condition in whole or in part. If the Director finds good cause to believe that ambient noise from a facility violates applicable provisions in this code, the Director, in addition to any other actions or remedies authorized by the permit, this code or other applicable Laws, may require the permittee to commission a noise study by a qualified professional to evaluate the facility's compliance. The permittee shall, at its sole cost and expense, repair and restore any and all damages to public and private properties that result from any activities performed in connection with the installation or maintenance of a wireless facility. The permittee shall restore such areas, structures and systems to the condition in which they existed prior to the installation or maintenance that necessitated the repairs. If the permittee fails to complete such repair within the number of days stated on a written notice by the Director may (but shall not have the obligation to) cause such repair to be completed at permittee's sole cost and expense.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

14. **Annual Affirmation of Radio Frequency Standards Compliance.** On or before January 30th in each calendar year, the permittee acknowledges and agrees that the permittee shall submit: (1) an affirmation, signed by an RF engineer familiar with the then-current equipment deployed and operated at the wireless facility under penalty of perjury, that the installation is operated in compliance with 47 U.S.C. § 324; (2) an affirmation, signed by an RF engineer familiar with the then-current equipment deployed and operated at the wireless facility under penalty of perjury, that the installation complies with all applicable FCC rules and regulations for human exposure to RF emissions and will not cause members of the general public to be exposed to RF levels that exceed the maximum permission exposure levels deemed safe by the FCC; and (3) a copy of the fully completed FCC form “A Local Government Official’s Guide to Transmitting Antenna RF Emission Safety: Rules, Procedures, and Practical Guidance: Appendix A titled “Optional Checklist for Determination of Whether a Facility is Categorically Excluded” for each frequency band of RF emissions to be transmitted from the facility. All radio frequency emissions on all frequency bands must be shown on the Appendix A form(s). All radio frequency emissions are to be entered on each Appendix A form only in wattage units of “effective radiated power.”
15. **Interference with City Communications Systems.** The permittee shall not permit the wireless facility authorized under this permit to interfere with any City communication systems. In the event that the wireless facility authorized under this permit is causing interference with any City communication systems, the Director may order the facility to be shut down and powered off until such time as the immediate interference has been mitigated, after a good faith effort is made to notify the permittee, if feasible. Any mitigations required shall be at the permittee’s sole cost and expense.
16. **Inspections; Emergencies.** The City’s officers, officials, staff, agents, contractors or other designees may enter onto the site and inspect the improvements and equipment upon reasonable prior notice to the permittee. Notwithstanding the prior sentence, the City’s officers, officials, staff, agents, contractors or other designees may, but will not be obligated to, enter onto the site area without prior notice to support, repair, disable or remove any improvements or equipment in emergencies or when such improvements or equipment threatens actual, imminent harm to property or persons. The permittee, if present, may observe the City’s officers, officials, staff or other designees while any such inspection or emergency access occurs.
17. **Safety Hazard Protocol.** If the Fire Safety Authority finds good cause to believe that the wireless facility presents an immediate fire risk, electrical hazard or other threat to public health and safety in violation of any applicable Laws, the Fire Safety Authority may order the facility to be shut down and powered off until such time as the immediate threat has been mitigated, after

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

a good faith effort is made to notify the permittee, if feasible. Any mitigations required shall be at the permittee's sole cost and expense.

18. **Abandonment.** The permittee shall notify the Director when the permittee intends to abandon or decommission the wireless facility authorized under this permit. In addition, the wireless facility authorized under this permit shall be deemed abandoned if the wireless facility has not operated for any continuous six-month period and the permittee fails to resume operations within 90 days from a written notice from the Director. Within 90 days after a wireless facility is abandoned or deemed abandoned, the permittee, property owner and/or structure owner shall completely remove the wireless facility and all related improvements and shall restore all affected areas to a condition compliant with all applicable Laws, which includes without limitation this code. The permittee, property owner and/or structure owner may request an extension up to 180 days to complete restoration after a wireless facility is abandoned or deemed abandoned, which the Director may grant if the permittee, property owner or structure owner presents evidence of good cause for the extension. If neither the permittee, the property owner nor the structure owner complies with the removal and restoration obligations under this condition within the required period, the City shall have the right (but not the obligation) to perform such removal and restoration with or without notice, and the permittee, property owner and structure owner shall be jointly and severally liable for all costs and expenses incurred by the City in connection with such removal and/or restoration activities.
19. **Permittee's Contact Information.** Prior to final inspection and at all times relevant to this permit, the permittee shall keep on file with the Director basic contact and site information. This information shall include, but is not limited to, the following:
- a. the name, physical address, notice address (if different from physical address), direct telephone number and email address for (i) the permittee and, if different from the permittee, the (ii) property owner, (iii) structure owner, (iv) site operator, (v) equipment owner, (vi) site manager and (vii) agent for service of process;
  - b. the regulatory authorizations held by the permittee and, to the extent applicable, property owner, structure owner, site operator, equipment owner and site manager as may be necessary for the facility's continued operation;
  - c. the facility's site identification number and/or name used by the permittee and, to the extent applicable, property owner, structure owner, site operator, equipment owner and site manager; and

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- d. a toll-free telephone number to the facility's network operations center where a live person with power-down control over the facility is available 24 hours-per-day, seven days-per-week.

The City may develop a form in connection with such disclosures and, if so, the permittee shall be required to use such form. Within 10 business days after a written request by the City, the permittee shall furnish the City with an updated form that includes all the most-current information described in this condition. Any notices from the City to the permittee shall be deemed given when delivered to the most current address(es) for the permittee on file with the City.

- 20. **Indemnification.** The permittee and, if applicable, owners (other than the City) of the property and the structure upon which the wireless facility is installed, shall defend, indemnify and hold harmless the City, City Council and the City's boards, board members, commissions, commissioners, agents, officers, officials, employees and volunteers (collectively, the "**City Indemnitees**") from any and all (a) damages, liabilities, injuries, losses, costs and expenses and from any and all claims, demands, law suits, writs and other actions or proceedings ("**Claims**") brought against the City or any City Indemnitees to challenge, attack, seek to modify, set aside, void or annul the City's approval of this permit, and (b) other Claims of any kind or form, whether for personal injury, death or property damage, that arise from or in connection with the permittee's or its agents', directors', officers', employees', contractors', subcontractors', licensees', or customers' acts or omissions in connection with this permit or the wireless facility. If the City becomes aware of any Claims, the City will use best efforts to promptly notify the permittee and the owners of the property and the structure (if applicable) and shall reasonably cooperate in the defense. The permittee, property owner and structure owner expressly acknowledge and agree that the City shall have the right to approve, which approval shall not be unreasonably withheld, the legal counsel providing the City's defense, and the permittee, property owner and/or structure owner shall promptly reimburse the City for any costs and expenses directly and necessarily incurred by the City in the course of the defense. The permittee, property owner and structure owner expressly acknowledge and agree that the permittee's indemnification obligations under this condition are a material consideration that motivates the City to approve this permit, and that such indemnification obligations will survive the expiration, revocation or other termination of this permit.
- 21. **Insurance.** The permittee shall obtain and maintain insurance policies as follows:
  - a. **Commercial General Liability Insurance.** Insurance Services Office Form CG 00 01 covering Commercial General Liability ("CGL") on an "occurrence" basis, with limits not less than \$2,000,000 per occurrence or

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

\$4,000,000 in the aggregate. If a general aggregate limit applies, the general aggregate limit shall apply separately to this project/location. CGL insurance must include coverage for the following: Bodily Injury and Property Damage; Personal Injury/Advertising Injury; Premises/Operations Liability; Products/Completed Operations Liability; Aggregate Limits that Apply per Project; Explosion, Collapse and Underground (“UCX”) exclusion deleted; Contractual Liability with respect to the permit; Broad Form Property Damage; and Independent Consultants Coverage. The policy shall contain no endorsements or provisions limiting coverage for (i) contractual liability; (ii) cross liability exclusion for claims or suits by one insured against another; (iii) products/completed operations liability; or (iv) contain any other exclusion contrary to the conditions in this permit.

- b. **Automotive Insurance.** Insurance Services Office Form Number CA 00 01 covering, Code 1 (any auto), or if permittee has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than \$1,000,000 per accident for bodily injury and property damage.
- c. **Workers’ Compensation Insurance.** The permittee shall certify that it is aware of the provisions of California Labor Code § 3700, which requires every employer to be insured against liability for workers’ compensation or to undertake self-insurance in accordance with the provisions of that code, and further certifies that the permittee will comply with such provisions before commencing work under this permit. To the extent the permittee has employees at any time during the term of this permit, at all times during the performance of the work under this permit the permittee shall maintain insurance as required by the State of California, with Statutory Limits, and Employer’s Liability Insurance with limit of no less than \$1,000,000 per accident for bodily injury or disease.
- d. **Professional Liability Insurance.** The permittee shall maintain Professional Liability (Errors and Omissions) Insurance appropriate to the permittee’s profession, with limit no less than \$1,000,000 per occurrence or claim. This insurance shall be endorsed to include contractual liability applicable to this permit and shall be written on a policy form coverage specifically designed to protect against acts, errors or omissions of the permittee. “Covered Professional Services” as designed in the policy must specifically include work performed under this permit.
- e. **Claims-Made Policies.** If the permittee maintains any required insurance under a claims-made form, the permittee shall maintain such coverage continuously throughout the permit term and, without lapse, for at least three years after the permit term expires so that any claims that arise after the expiration in connection with events that occurred during the permit term are covered by such claims-made policies.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- f. **Umbrella or Excess Liability Policies.** If an umbrella or excess liability insurance policy is used to satisfy the minimum requirements for CGL or automotive insurance coverage listed above, the umbrella or excess liability policies shall provide coverage at least as broad as specified for the underlying coverages and covering those insured in the underlying policies. Coverage shall be “pay on behalf,” with defense costs payable in addition to policy limits. permittee shall provide a “follow form” endorsement or schedule of underlying coverage satisfactory to the City indicating that such coverage is subject to the same terms and conditions as the underlying liability policy.
- g. **Additional Insured; Separation of Insureds.** The relevant CGL and automotive insurance policies shall name the City, its elected/ appointed officials, commission members, officers, representatives, agents, volunteers and employees as additional insureds. The required insurance shall contain standard separation of insureds provisions, and shall contain no special limitations on the scope of its protection to the City, its elected/appointed officials, commission members, officers, representatives, agents, volunteers and employees.
- h. **Primary Insurance; Waiver of Subrogation.** The required insurance shall be primary with respect to any insurance programs covering the City, its elected/appointed officials, commission members, officers, representatives, agents, volunteers and employees. All policies for the required CGL, automotive and workers’ compensation insurance shall provide that the insurance company waives all right of recovery by way of subrogation against the City in connection with any damage or harm covered by such policies
- i. **Term; Cancellation Notice.** The permittee shall maintain the required insurance throughout the permit term and shall replace any certificate, policy, or endorsement which will expire prior to that date. The permittee shall use its best efforts to provide 30 calendar days’ prior written notice to the City of the cancellation or material modification of any applicable insurance policy; provided, however, that in no event shall the permittee fail to provide written notice to the City within 10 calendar days after the cancellation or material modification of any applicable insurance policy. The permittee shall promptly take action to prevent cancellation or suspension, reinstate cancelled coverage or obtain coverage from a different qualified insurer.
- j. **Certificates.** Before the City issues any permit, the permittee shall deliver to the Director insurance certificates and endorsements, in a form satisfactory to the Director, that evidence all the coverage required above. In addition, the permittee shall promptly deliver complete copies of all

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

insurance policies and endorsements upon a written request by the Director.

- k. **Insurer Rating.** Unless approved in writing by the City, all required insurance shall be placed with insurers authorized to do business in the State of California and with a current A.M. Best rating of at least A-:VIII.
22. **Removal Bond.** Before the building official issues any permits required to commence construction, installation or other work in connection with this permit, the permittee shall post a bond issued by a surety and in a form acceptable to the City Attorney in an amount reasonably necessary to cover the cost to remove the improvements and restore all affected areas based on a written estimate from a qualified contractor with experience in wireless facilities or other infrastructure removal. The written estimate must include the cost to remove all equipment and other improvements, which includes without limitation all antennas, radios, batteries, generators, utilities, cabinets, mounts, brackets, hardware, cables, wires, conduits, structures, shelters, towers, poles, footings and foundations, whether above ground or below ground, constructed or installed in connection with the wireless facility, plus the cost to completely restore any areas affected by the removal work to a standard compliant with applicable Laws. The bond shall be valid for at least 10 years or the term of this permit (whichever is greater). In establishing or adjusting the bond amount required under this condition, the Director shall take into consideration any information provided by the permittee regarding the cost to remove the wireless facility to a standard compliant with applicable Laws. The bond shall expressly survive the duration of the permit term to the extent required to effectuate a complete removal of the subject wireless facility in accordance with this condition. If at any time after construction the Director finds good cause to believe that the bond required in this condition no longer adequately covers the removal and restoration costs, the Director may require by written notice that the permittee provide an updated estimate and increase the bond amount to cover any increased costs.
23. **Record Retention.** Throughout the permit term, the permittee must maintain a complete and accurate copy of the written administrative record, which includes without limitation the permit application, permit, the approved plans and photo simulations incorporated into this approval, all conditions associated with this approval, any ministerial permits or approvals issued in connection with this approval and any records, memoranda, documents, papers and other correspondence entered into the public record in connection with the permit (collectively, "**Records**"). If the permittee does not maintain such Records as required in this condition, any ambiguities or uncertainties that would be resolved by inspecting the missing Records will be construed against the permittee. The permittee shall protect all Records from damage from fires, floods and other hazards that may cause deterioration. The permittee may keep Records in an electronic format; provided, however, that

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

hard copies or electronic Records kept in the City's regular files will control over any conflicts between such City-controlled copies or Records and the permittee's electronic copies, and complete originals will control over all other copies in any form. The requirements in this condition shall not be construed to create any obligation on the City to create or prepare any Records not otherwise required to be created or prepared by other applicable Laws. Compliance with the requirements in this condition shall not excuse the permittee from any other similar record-retention obligations under applicable Laws.

24. **Permit Revocation.** Any permit granted under **Chapter 17.46** or deemed approved by the operation of law may be revoked in accordance with the provisions and procedures in code **Section 17.66.050**.
25. **Future Undergrounding Programs.** Notwithstanding any term remaining on any Administrative Permit, if other utilities or communications providers in the public rights-of-way underground their facilities in the segment of the public rights-of-way where the permittee's wireless facility is located, the permittee must also underground its equipment, except the antennas and any approved electric meter or related electric-service equipment required by the electric service provider to remain above ground, at approximately the same time. Accessory equipment, such as radios and computers that require an environmentally controlled underground vault to function, shall not be exempt from this condition; provided, however, that the Director may approve an alternative stealth/concealment plan for such equipment that complies with the City's then current design regulations. Such undergrounding shall occur at the permittee's sole cost and expense, except as may be reimbursed through tariffs approved by the state public utilities commission for undergrounding costs.
26. **Electric Meter Upgrades.** If the wireless facility includes a separate or ground-mounted electric meter pedestal and the commercial electric utility provider adopts or changes its rules obviating the need for a separate or ground-mounted electric meter and enclosure, the permittee, on its own initiative and at its sole cost and expense, shall remove the separate or ground-mounted electric meter and enclosure. Prior to removing the electric meter, the permittee shall apply for any encroachment and/or other ministerial permit(s) required to perform the removal. Upon removal, the permittee shall restore the affected area to its original condition that existed prior to installation of the equipment.
27. **Rearrangement and Relocation.** The permittee acknowledges that the City, in its sole discretion and at any time, may (a) change any street grade, width, or location; (b) add, remove, or otherwise change any improvements in, on, under, or along any street owned by the City or any other public agency, which includes, without limitation, any sewers, storm drains, conduits, pipes,

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- vaults, boxes, cabinets, poles, and utility systems for gas, water, electric, or telecommunications; and/or (c) perform any other work deemed necessary, useful, or desirable by the City (collectively, "City work"). The City reserves the rights to do any and all City work without any admission on its part that the City would not have such rights without the express reservation in this permit. If the Director determines that any City work will require the permittee's wireless facility located in the public rights-of-way to be rearranged and/or relocated, the permittee shall, at its sole cost and expense, do or cause to be done all things necessary to accomplish such rearrangement and/or relocation. If the permittee fails or refuses to either permanently or temporarily rearrange and/or relocate the permittee's wireless facility within a reasonable time after the Director's notice, the City may (but will not be obligated to) cause the rearrangement or relocation to be performed at the permittee's sole cost and expense. The City may exercise its rights to rearrange or relocate the permittee's wireless facility without prior notice to permittee when the Director determines that City work is immediately necessary to protect public health or safety. The permittee shall reimburse the City for all costs and expenses in connection with such work within 10 business days after a written demand for reimbursement and reasonable documentation to support such costs.
28. **Truthful and Accurate Statements.** The permittee acknowledges that the City's approval relies on the written and/or oral statements by permittee and/or persons authorized to act on permittee's behalf. In any matter before the City in connection with the permit or the wireless facility, neither the permittee nor any person authorized to act on permittee's behalf shall, in any written or oral statement, intentionally provide material factual information that is incorrect or misleading or intentionally omit any material information necessary to prevent any material factual statement from being incorrect or misleading.
29. **Successors and Assigns.** The conditions terms contained in this permit will bind and inure to the benefit of the City and permittee and their respective successors and assigns.
30. **Severable Conditions.** If any provision in these conditions or such provision's application to any person, entity or circumstances is or held by any court with competent jurisdiction to be invalid or unenforceable: (a) such provision or its application to such person, entity or circumstance will be deemed severed from this permit; (b) all other provisions in this permit or their application to any person, entity or circumstance will not be affected; and (c) all other provisions in this permit or their application to any person, entity or circumstance will be valid and enforceable to the fullest extent permitted by law.

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

- B. **Modified Conditions.** The approval authority may modify, add or remove conditions to any permit as the approval authority deems necessary or appropriate to: (1) protect and/or promote the public health, safety and welfare; (2) tailor the standard conditions in **subsection A** to the particular facts and circumstances associated with the deployment; and/or (3) memorialize any changes to the proposed deployment need for compliance with this code, generally applicable health and safety requirements and/or any other applicable Laws.

**17.46.110 Special Exceptions for Federal or State Preemption**

- A. **Preface.** The provisions in this section establish a procedure by which the City may grant an exception to the standards in this chapter but only to the extent necessary to avoid conflict with applicable federal or state law. When the applicant requests an exception, the Director (or the City Council on appeal) shall consider the findings in **Section 17.46.110.B** in addition to the findings required under **Section 17.46.070.B**. Each exception is specific to the facts and circumstances in connection with each application. An exception granted in one instance shall not be deemed to create a presumption or expectation that an exception will be granted in any other instance.
- B. **Required Findings.** The approval authority shall not grant any limited exception pursuant to this chapter unless the approval authority finds all the following:
1. the applicant has provided the approval authority with a reasonable and clearly defined technical service objective to be achieved by the proposed wireless facility;
  2. the applicant has provided the approval authority with a detailed written statement that explains why: (a) a denial based on the application's noncompliance with a specific provision or requirement would violate federal law, state law or both; or (b) a provision in this chapter, as applied to the applicant, would violate any rights or privileges conferred on the applicant by federal or state law;
  3. the applicant has provided the approval authority with a written statement that contains a detailed and fact-specific explanation as to why the proposed wireless facility cannot be deployed in compliance with the applicable provisions in this chapter, the code, the general plan and/or any specific plan;
  4. the applicant has provided the approval authority with a meaningful comparative analysis with the factual reasons why all alternative locations and/or designs identified in the administrative record (whether suggested by the applicant, the City, public comments or any other source) are not technically feasible or potentially available to reasonably achieve the

**ATTORNEY-CLIENT PRIVILEGED WORK PRODUCT  
FOR DISCUSSION PURPOSES ONLY**

applicant's reasonable and clearly defined technical service objective to be achieved by the proposed wireless facility;

5. the applicant has demonstrated that the proposed location and design is the least non-compliant configuration that will reasonably achieve the applicant's reasonable and clearly defined technical service objective to be achieved by the proposed wireless facility, which includes without limitation a meaningful comparative analysis into multiple smaller or less intrusive facilities dispersed throughout the intended service area;
  6. the exception requested by the applicant does not compromise or excuse compliance with any fire safety or other public safety standard; and
  7. the exception is narrowly tailored such that any deviation from this chapter is only to extent necessary for compliance with federal or state law.
- C. **Evidentiary Standard.** The applicant shall have the burden to prove to the approval authority that an exception should be granted pursuant to this [Section 17.46.110](#). The standard of evidence shall be the same as required by applicable federal or state law for the issue raised in the applicant's request for an exception.
- D. **Expert Review.** Independent expert and/or consultant review will generally be appropriate when considering an exception request, which shall be at the applicant's cost in the same manner as described in Section 17.46.050.H.
- E. **Legal Review.** Any exception request shall require the consultation of the City Attorney as to the validity and legal justification for the exception.

#### **17.46.120 Violations**

Any use or condition caused or permitted to exist in violation of any provision of this chapter shall be and hereby is declared a public nuisance and may be subject to administrative citations as set forth in [Chapter 18.04](#) of this code, summary abatement pursuant to [Chapter 15.57](#) of this code, California Code of Civil Procedure § 731, or any other remedy available to the City.
